BIBNNIAL EXAMINATION OF INVALID PENSIONERS.

PENSION OFFICE, August 10, 1863.

The next biennial examination of Army Invalid Pensioners, required by an act of Congress approved March 3, 1869, will take place on and after the 4th day of Beptember, 1863, and must precede the payment of pensions then falling due. No certificate of such examination bearing date prior to the 4th proximo will have any validity.

All examinations under the above-named law are required to be made by two surgeons. No certificate of examination made by unauthorised civil surgeons will be accepted, unless it is clearly impracticable for the persioner to obtain the certificate of two regularly appointed surgeons.

The fees for examination (\$2\$ in the aggregate for each case) will be refured to the pensioner examined, on presenting to the Pension Agent a re-

amined, on presenting to the Pension Agent a re-ceipt for the amount from the examining surgeons; but in no case will fees paid to unauthorised civil surgeons to refunded.

Those who are pensioned (1) by a special act of Congress; (2) for the loss of arm leg, hand or foot; or (3) for no other disability than the loss of a finger, a toe, or an eye, (not eyesight,) or than the privation of some like essential part of the pensioner's body, are exempt from the biennial examination. Those whose pensions commence at a date later than March 4, 1863 will also be exempt from examination until September 4, 1865, unless an earlier examination is specially required by their certificates

Should it be found, as a result of the examination in any case, the the pensioner's disability no longer exists, the pension will case. Should the degree of disability be found to have diminished, without disappearing altogether, the pensioner will be paid at the rate corresponding with the degree estimated by the examining surgeons, and no longer as specified in his pension certificate. No pension can be increased, except on formal application to this office, and by the issue of a new certificate.

A complete list of authorized Examining Surgeons, soon to be printed, will be furnished to pensioners on application.

Prisoners Taken-The Rebels on the Georgia State Line-General Burnside at Kinston. STEVENSON, ALABAMA, August 29. - The army of the Cumberland crossed the Tennessee river at four points to day, with infautry and cavalry. The Second Kentucky cavalry captured thirty five pickets at a point opposite Stevenson. General Reynolds captured a large force at Shellmound and took a camp on Falling Water creek. Among the captured are the notorious guerrilla Mays and the Tennessee Rebel Congressman Cannon. Little or no resistance was made. The Rebels are reported to have a force at Rome and Cleveland along the Georgia State railroad. General Burnside

Volunteering in New Jersey.

TRESTON, N. J., Aug. 29 .- Volunteering in the State of New Jersey is proceeding very briskly. About 5,000 men have been obtained since Governor Parker's proclamation was issued. Three new batteries are complete. One regiment of cavalry and two regiments of infantry will be completed during the coming week. Almost every township in the State is at work, and it is expected that in a few days the quota of New Jersey will be filled by voluntary enlistments, thus doing away with the conscription.

Two Rebel Spies Captured. NORFOLK, Aug. 28 .- Two rebel soldiers recently made their way into Norfolk, and, after taking notes of everything of military interest in and about the city, attempted to return to Richr ond, but were captured before passing our lines. They are now prisoners in Fort Norfolk, and it is expected will meet their de-serts in a few days. Their names are Wm. T.

LATE NEWS FROM THE SOUTH.

Rebel Accounts of Affairs at Charleston-Attack on Rebel Rifle-pits-Correspondence between Beauregard and Gilmore-Death of the Traiter Floyd.

The Richmond Dispatch of August 29th has the following: CHARLESTON, August 27 .- The enemy's attack on our rifle-pits on Wednesday night was made about seven o'clock, in overwhelming force. On Thursday the firing on both sides

was slow, with no unusual incidents.

ISBCOND DISPATCH. CHARLESTON, August 28.—The bombardment of Sumter and Wagner proceeds sluggishly. The enemy is working hard in the trenches in front of Wagner. No further attempt has been made to shell

the city. DEMAND FOR THE SURBENDER OF THE CITY. The Charleston papers of Monday contain some very interesting intelligence from that city. The Courier furnishes the following particulars of the new and important events in the bombardment which have taken place: The following is a copy of the communication of General Gilmore, received on Friday night at Battery Wagner, by General Hagood, in relation to the firing on the city: HEADQUARTERS DEPARTMENT OF SOUTH, MORRIS ISLAND, August 21, 1863 .- General: I have the honor to demand of you the imme-

diate evacuation of Morris Island and Fort Sumter by the Confederate forces. The present condition of Fort Sumter, and the rapid and progressive destruction which it is undergoing from my batteries, seem to render its complete demolition within a few hours a matter of certainty. All my heaviest guns have not yet opened. Should you refuse compliance with this demand, or should I receive no reply thereto within four bours after it is delivered into the hands of your subordinate at Fort Wagner, for transmission, I shall open fire on the city of

Charleston from batteries already established, within easy and effective range of the heart of the city. I am, General, very respectfully, your obedient servant, Q. A. GILMORB, Brig. Gen'l Com'g.
Official:—E. KEABNY A. A. G.
To General G. T. BEAUBEGARD, Commanding Consederate Forces, Charleston, S. C.

General Beauregard being absenton a recon-

noisance, the communication, which was re-

ceived at headquarters at about a quarter to eleven o'clock on Friday night, by General Jordan, and by him returned for the signature by General Gilmore and again returned. It was received at General Beauregard's head-quarters at 9 o'clock Saturday morning.

Between one and two o'clock, however, Saturday morning, the enemy commenced firing on the city, arousing our people from their slumbers. Twelve eight-inch shells feil into the city, thirteen in all having been fired. Fertunately no person was injured. Several shells fiew in the direction of St. Michael's eteeple, and fell either in the vacant lots in the boint district on King steet, or more generally struck in the centre of the streets, as exhibited at the corner of Queen and Ratledge, where an eight-inch shell tore up the plack road and dug a large hole in the ground. Another shot entered the warehouse of G. W. Williams & Co., at the corner of Hayne and Church streets, entered the roof and exploded in the upper story, making a large opening in the brick wall of the Medical Purveyor's storehouse next door, and scattering things in great cenfusion.

til guished with little effort before it had made any progress. Four shells fell in this locality. One large piece was picked up and exhibited et the guardhouse, where it was the subject of much curiosity. There was a good deal of excitement and

some surprise expressed at the enemy being able to react, the city from his present position. The battery we learn, is located in the marsh between Morris and Black Islands, distant tully five miles from Charleston. It is said to be a superior fortification, and believed to mount from three to tour Parrott guns of in circulation on Saturday and Sunday that Battery Baskell, on James Island, had brought its heavy game to ear upon this new fortification and eilenced the enemy's fire The report, he wever, was not credited, no authentic inform a ion being received to that effect, although ou bevery is said to have bombarded the work on Saturday and yesterday with good

The enemy have erected another battery within four hundred and fifty yards of Battery Wagner, frem which a continual artillery duel and musketry firing is maintained between the rickets in the rifle pits. On Friday hight a party of the en my, estimated at anont one huncred and firty strong, advanced, with the supposed object of flanking and storming the position of our pickets. The latter, only eighteen in number, allowed the enemy to advalice until with short range, when a voiley was joured in smorg them, every shot telling, and causing the whole party to retreat to their works. Several are known to have been killed and wounded. The fire upon Battery Wagner has not slackened since our last report, but it still exhibits no marks of the flery ordeal, and, it is semi-officially reported, will beer as much pounding as ever. Battery Gregg, which has been subjected to the same heavy fire, is also reported in the same good order and condition. Our casualties at Battery Wagner on Seturday were four killed and twenty-ene wounded.

On Saturday afternoon the steamer Spalding, Captain Dexter, went down to the fleet with a flag of truce flying, having on board H. P. Warker, Esq., British Consul, and Colonel Reman, of Gen. Beauregard's staff, bearing a communication from Gen. Beauregard to Gen. Gilmore. They were met by Lt. Forrest, of the Ironsides, who received their communication and returned to his vessel for orders. On his return Lieut. Forrest stated that he was metructed to say that the dispatches addressed to the Admiral would be replied to and sent under flag of truce to the North Channel, while the dispatches of Gen. Gilmore would be conveyed to him, and the reply necessary sen! by flag of truce to Battery Wagner. The object, as we learn, of Mr. Walker's visit was to solicit an interview and request more time be allowed for removal of non-combatants It being late in the evening, the interview could the had, but a reply was expected on Sun day morning.

Gen. Beauregard replied to Gen. Gilmore's despatch under date of August 22d. He commences by acknowledging the receipt of Gen. Gilmore's despatch, and after quoting certain portions of it relative to the demolition of Sumter and the threat to shell the city if the works on Morris Island and Fort Sumter are not surrendered, Gen. B. says:

"This communication to my address was without signature, and was of course returned. "About haif-past one o'clock one of your bat-teries did actually open fire and throw a number of heavy shells into the city, the inhabitants of which, of course, were asleep and un warned. "About nine o'clock this morning the communication alluded to above was returned to these headquarters, bearing your recognized official signature, and it can now be noticed as

your deliberate official act. "Ameng nations not barbarous the usages of war prescribe that when a city is about to be attacked timely notice shall be given by the attacking commander, in order that non-combatants may have an opportunity for withdiswing bevond its limits chargestally the least the women and children. You, sir, give only four hours, knowing that your notice, under existing eircumstances, could not reach me in less than two hours, and that no less than the same time would be required for an answer to be conveyed from this city to Battery Wagner. With this knowledge, you threaten to open fire on this city, not to oblige its surrender, but to force me to evacuate these works, which you, assisted by a great naval force, have been attacking in vain for more than

orly cays. "Batteries Wagner and Gregg and Fort Sumter are nearly due north from your batt ries on Morris Island, and in distance therefrom varying from half a mile to two and a quarter miles. This city, on the other hand, is to the northwest, and quite five miles distant from the battery opened against it this morn-

IDE." Gen. B. then accuses Gen. Gilmore of turning his guns upon "defenseless women and children" because he despaired of taking Sumter and the Morris Island batteries. This act, he fears, will give Gen. G. "a bad eminence" in history. Gen. Gi more is also warned that if he fires again upon the city, Beauregard "shall feel impelled to employ such stringent means of retaliation as may be avialable during the continuance of this attack.

"Finally, I reply that neither the works on Morris Island nor Fort Sumter will be evacuated on the demand you have been pleased to make. Already, however, I am taking measures to remove all non-combatants, who are now fully aware of and alive to what they may expect at your hands.

"Respectfully, your obedient servant,
"G. T. BEAUREGAED, Gen'l Com'g."
The following dispatch was received at headquarters at three p. m .: MORRIS ISLAND, 2.55 p. m., August 23 .- Fo General Jordan : At eleven o'clock to-day (Jen-

eral Gilmore's communication was received. He gives until eleven p. m. to-morrow to remove non-combatents. (Signed,) GENERAL HAGOOD. On receipt of the communication, however, at headquarters, it was discovered that Gen. Gilmore dated his dispatch in reply 9 p. m. of the 22d, (Saturday night,) but did not cause it

to be delivered at Wagner until 12 m., Sunday. The date was not then noticed, and hence Gen. Hagood's telegram that until 11 p. m. tomorrow was given for the removal of non-combatants. The fire upon the city was, therefore, renewed Sunday night about 11 o'clock. At the same time an answer was received to the communication of Senor Moncada, Span-ish Consul, who had also sent a note to Gen. Gilmore, requesting 48 hours notice for the removal of non-combatants. A MOVEMENT BY GEN. BANKS .- The Chicago Post has information that movements now in progress under the direction of Gen. Banks will not only speedily restore the entire Red river district to his control, but that at an early day opperations will be commenced having for their object the occupation of Texas. The great movement, however, is in another direction. Thirty thousand troops, reinforcements to Gen. Banks' department, are on the way down the river, to be commanded by General Grover, who has been one of the Generals commanding under Cen. Banks in all his recent opperations. With this additional force all the towns on and near the Lake Ponchar-train coast will be occupied-Madisonville, Mandeville, Bay St., Louis, Pass Christian, Biloxi, and Pascagonia-the latter place becoming the base of operations for a land at-tack against Mobile.—N. No DRAFT IN ILLINOIS.—A letter has been been recived from the Hon. I. N. Morris, now in Washington, stating that he has ascertained frem official sources that Illinois is credited at the War Department with an excess of 40,000 men over her quota of volunteers; that this excess will be credited on the draft, and that 40,000 being more than the draft quots for I His? nois there will be no draft in the State ander the call that is now being filled. This excess of 40.000 is considerably greater than any one in this region supposed Illinois was entitled to receive credit for. It is supposed to include the large number of men enlisted by the recruiting officers from Missonri .- Chicago Post, I adol

VOLUNTEERING IN NEW JERSEY -- A diepatch dated at Trenton on Saturday Lat says :- Volunteering in the State of New Jersey is proceeding very briskly. About 5.0 0 m a have been obtained since Gov. Parker's proclamation was issued. Three new batteries are complete, and one regiment of cavalry and two regiments of infantry will be completed during the coming week. Almost every township in the State is at work, and it is expected that in a tew days the quota of New Jersey will be the explosion, which caused the alarm bell to filled by voluntary entistments, thus doing ring and brought out the firemen. It was exaway with the conscription."
